

Name as shown on Form K-120	Employer Identification Number (EIN)
-----------------------------	--------------------------------------

**CURRENT AND PRIOR YEAR INFORMATION**

1. Subtract lines 29 and 30 from line 25 on Form K-120 and enter here .....	1	
2. Multiply line 1 by 90% .....	2	
3. Prior year's tax liability (Subtract lines 28 and 29 from line 25 of last year's Form K-120) .....	3	

**PART I – EXCEPTIONS TO THE PENALTY**

	(1)	(2)	(3)	(4)
4. Enter in Columns (1) through (4) the installment due dates that correspond to the 15th day of the 4th, 6th, 9th and 12th month of the taxable year .....	4			
5. Cumulative timely paid estimated tax payments and credit forward from the beginning of the tax year through each installment due date .....	5			
6. Exception 1 – Cumulative amount from either line 2 or line 3, whichever is less .....	6	25% of line 2 or 3	50% of line 2 or 3	75% of line 2 or 3
7. Exception 2 – Tax on annualized 2008 income .....	7	22.5% of tax	45% of tax	67.5% of tax
		100% of line 2 or 3	90% of tax	

**PART II – FIGURING THE PENALTY**

8. Amount of underpayment. Enter the sum of line 6 less line 5; or line 7, less line 5; whichever is applicable ..	8				
9. Due date of each installment .....	9				
10. Number of days from the due date of the installment in one column to the due date of the next installment in the next column or to 12/31/08; whichever is earlier. If paid late, see instructions. ....	10				
11. For calendar years, enter the number of days from 1/1/09 to the due date of the return or the date the tax was paid, whichever was earlier. For fiscal years, see the instructions. If paid late, see instructions. ....	11				
12. $\frac{\text{Line 10}}{366} \times (9\% \times \text{amount on line 8})$ .....	12				
13. $\frac{\text{Line 11}}{365} \times (6\% \times \text{amount on line 8})$ .....	13				
14. Penalty (Add lines 12 and 13) .....	14				
15. Total penalty. Add amounts on line 14; enter the total here and on line 37 (Estimated Tax Penalty) of Form K-120 .....	15				

# INSTRUCTIONS FOR SCHEDULE K-220

If any due date falls on a Saturday, Sunday, or legal holiday, substitute the next regular work day.

## WHO MAY USE THIS SCHEDULE

Schedule K-220 will help a corporation determine if it paid the correct amount of estimated tax by the correct due date. If the minimum amount was not paid on time, an underpayment penalty will be imposed for the period of underpayment. This schedule helps determine whether the corporation is subject to the penalty.

**ESTIMATED TAX** – Every corporation is required to pay estimated tax for the taxable year if its Kansas tax liability can reasonably be expected to exceed \$500. A corporation is not required to file a declaration in its first year of existence in Kansas.

**SHORT TAXABLE YEARS** – Any estimated tax, payable in installments, which is not paid before the 15th day of the last month of a short taxable year shall be paid on the 15th day of the last month of the short taxable year.

## COMPLETING THIS SCHEDULE

Enter your name and your EIN (Employer Identification Number) in the space provided at the top of this schedule.

**LINES 1 through 3:** Complete these lines based on information from your return for this tax year and from the prior tax year's return.

### PART I – EXCEPTIONS TO THE PENALTY

You will NOT be subject to a penalty if your 2008 tax payments (line 5, columns 1 through 4) equal or exceed the amounts for one of the exceptions (lines 6 or 7, columns 1 through 4) for the same payment period.

**LINE 4:** Enter the due date of each estimate payment installment (15th day of the 4th, 6th, 9th and 12th months for the tax year).

**LINE 5:** Enter the cumulative amount of timely paid estimated tax payment made in each quarter.

EXAMPLE: For a calendar year, column 3 will be the total of your timely paid estimated payments made from January 1 through September 15, 2008.

**LINE 6:** Exception 1. This exception applies if the amount on line 5 of a column equals or exceeds the amount on line 6 for the same column. Enter the amount from line 2 or line 3, whichever is less, times the percentages shown in each column of the schedule.

**LINE 7:** Exception 2. This exception applies if the amount on line 5 of a column equals or exceeds the amount on line 7 for the same column, if applicable. A corporation may annualize its income if the corporation made an estimated tax payment of at least 90% of the amount it would owe if its estimated tax were a tax computed on annualized taxable income for the months preceding an installment date. The computation is as follows:

- a) for the first 3 months, if the installment was required to be paid in the 4th month;
- b) for the first 3 months or for the first 5 months, if the installment was required to be paid in the 6th month;

- c) for the first 6 months or for the first 8 months if the installment was required to be paid in the 9th month; **and**
- d) for the first 9 months or for the first 11 months if the installment was required to be paid in the 12th month.

### PART II – FIGURING THE PENALTY

**LINE 8:** Enter on line 8 the amount of underpayment of tax, which is the lesser of one of the following computations:

- Line 6 less line 5; **or**
- Line 7 less line 5

**LINE 9:** Enter the due date of each estimate payment installment (15th day of the 4th, 6th, 9th and 12th months of the tax year).

Penalty for lines 10 and 11 is computed to 12/31/08 at 9% and from 1/1/09 at 6%. Therefore, the number of days needs to be captured on lines 10 and 11 for applicable penalty rate.

**LINE 10:** Enter in the first column the number of days from the first installment due date to the next installment due date and enter the same for the remaining installment due dates. **Do not** compute the number of days for this line past 12/31/08. Days past that date are to be entered on line 11.

EXAMPLE: For the fiscal year ending 6/30/09 the installment due dates are 10/15/08, 12/15/08, 3/15/09 and 6/15/09; therefore, the taxpayer will enter on line 10 the following number of days: Column 1 - 10/15/08 to 12/15/08 equals 61 days. Column 2 - 12/15/08 to 12/31/08 equals 16 days. Columns 3 and 4 of this line will not be completed since the number of days has been computed to 12/31/08. The computation for this fiscal year will continue on line 11.

**LINE 11:** Enter the number of days from 1/1/09 to the due date of the next installment (if one exists). From the last installment date enter the number of days to the date paid or the due date of the return, whichever is earlier. The following example continues the computation example from line 10.

EXAMPLE: Column 1 is blank since there are no days prior to 1/1/09 on this line. Column 2 - 1/1/09 to 3/15/09 equals 74 days. (Note: The 16 days previously entered on line 10 plus the 74 days equals the total number of days from 12/15/08 to 3/15/09.) Column 3 - 3/15/09 to 6/15/09 equals 92 days. Column 4 - is to be computed from 6/15/09 to the date the tax was paid or 10/15/09, the due date of the return, whichever is earlier.

**LINES 12 and 13:** Penalty is computed to 12/31/08 at 9% and from 1/1/09 to the date the tax was paid or 4/15/09, whichever is earlier, at 6%. For fiscal year filers the 9% rate will be effective until 12/31/09.

**LINE 14:** For each column, add lines 12 and 13 and enter the result on line 14.

**LINE 15:** Add the amounts on line 14 and enter on line 37, Form K-120. If you are annualizing to meet an exception (line 7, K-220) check the box beside line 37, Form K-120.
