INSTRUCTIONS FOR SCHEDULE K-81

GENERAL INSTRUCTIONS

K.S.A. 79-32,222 provides a tax credit for tax years beginning after December 31, 2006 against the Kansas income tax liability equal to the amount of a taxpayer's "qualified expenditures" for an existing refinery to comply with environmental standards. To qualify for this tax credit a taxpayer shall apply to the Secretary of Health and Environment for a "certificate of compliance" that the costs were incurred to comply with environmental standards or requirements as specified in K.S.A. 79-32,222 subsection (a). If the credit allowed exceeds the taxpayer's tax liability in any one taxable year, the amount of the credit that exceeds the tax liability may be carried forward until the total amount of the credit is used, except that no such tax credit shall be carried over for deduction after the fourth taxable year succeeding the year in which the costs are incurred.

"Qualified expenditures" means expenditures which the secretary of health and environment certifies to the director of taxation are required for an existing refinery to comply with environmental standards or requirements established pursuant to federal statute or regulation, or state statute or rules and regulation, adopted after December 31, 2006.

"Refinery" means an industrial process plant, located in this state, where crude oil is processed and refined into petroleum products.
