## 2009 INFORMATION RETURNS SPECIFICATIONS FOR ELECTRONIC FILING

The Kansas Department of Revenue no longer accepts 1099s reports filed on magnetic media as of January 1, 2007. Kansas requires, however, that filers with 51 or more records per type of information return file by electronic means. Most will be able to file through a Department developed, web-based application. Filers with less than 51 records can also benefit from using the application. All 1099s must be filed by the last day of February for the reporting year. Additional information regarding the Kansas electronic filing process with the state of Kansas is available on our website: <http://www.ksrevenue.org/forms-btwh.htm>.

The State of Kansas follows the IRS guidelines in regard to the filing of Information Returns per K.S.A. 79-3222. The most common of these returns are 1099s. Refer to IRS Publication 1220 for file layouts which are available on the IRS website: <http://www.irs.gov/pub/irs-pdf/p1220.pdf>.

The following information provides a brief overview of specifications for those employers who are either required or to submit information returns by electronic means in lieu of paper returns.

<p style="text-align: center;"><b>ELECTRONIC RECORDS THAT DO NOT CONFORM TO THE SPECIFICATIONS DEFINED IN THESE INSTRUCTIONS WILL NOT BE ACCEPTED.</b></p>
