

If you have questions about your driver's license regarding medical or vision conditions please direct them to the Driver Review Section. Our telephone number is 785-368-8971. Telephones are answered Monday through Friday 7:30 a.m to 4:50 p.m.

You may be asked to provide medical and/or vision information if your condition has changed physically, mentally or visually since your last renewal, or at any time you appear at the Exam Station to make application for a permit or license. There are standard health questions to answer and the Examiner may ask for additional information or refer you to the Driver Review Section to obtain a medical or vision report.

You may be referred to the Driver Review Section for many conditions such as, but not limited to loss of limb(s), progressive neurological or muscular diseases, head injuries, strokes, seizures, diabetes, psychiatric conditions or syndromes, or non-standard vision, visual conditions, diseases and visual field loss.

You will need to contact Driver Review if you have been referred to a rehabilitation driving center for a driving evaluation or training after an injury or condition which may require you to drive with modified equipment.

If you are asked to complete a medical or vision report for Driver Review or the Kansas Medical Advisory Board, your file and medical information will be kept confidential, and only associates who work for Driver Review, you and your doctor will be able to correspond regarding your medical or vision information. No medical information will be made public, nor will anything, with the exception of physical restrictions, such as Corrective Lenses, appear on your driver's license. You may be required to report in annually or for follow up purposes as a condition of licensure.

Every effort will be made to help you on your journey to obtain or maintain your driving privileges. Our office is ADA and statutorily compliant with all of our requests and requirements. We do not discriminate by age or impairment, however we are charged with the duty to determine a driver's safety on the roadways in Kansas.
